

Intro

Coach Items:

- NDAs

Dev Team Items:

Methodology

- Scrum
- Sprints last 2 weeks (end tuesday before our meetings)
- Retrospectives and Sprint Planning happen at that Tuesday meeting
- Standups at the end of each Tuesday/Thursday meeting

Domain Model

- Database
- Forums Page
- Private Messaging
- Listings Page
- Upload Page
 - Listing
 - Video
 - Diagrams
- Login Page
- Main Page
- Simple Secure Storage
 - File and video uploads
- Payment Page?

MIF Items:

Questions

- Best way to communicate with you guys?
- Do you have an estimate on the budget for this project?

- How often are people using this app? Can we limit the uptime between 12:00 a.m. and 6:00 a.m.?
- Is there going to be a payment process for the application?
- Can users upload arbitrary parts to the site? Will they need to upload based on existing parts?

Notes

- The sponsor comes weekly with a meeting on Thursdays with a demonstration of progress happening every other Thursday at the end of the sprints
- After recovering Tom will be available every week with Devin being available every week
- Categories for different chairs
 - To find parts more easily
- Transactions will be covered in the app
- DB:
 - Recommend doing a verification system to make sure its a valid part
 - Must be reviewed to ensure it is the correct part
 - Admin approval needed (email to be sent to admin)
 - Should be able to upload custom parts for modified chairs
 - Custom v standard
- User roles
- Forums
 - Classic board layout
- Copyright with tech drawings can be a possible conflict with suppliers
 - Can find most diagrams online
 - Can create diagrams himself
 - Build functionality (don't worry about diagrams), just allow the function to be added
- Expected user numbers: quite a lot
 - As many as possible
- Budget based on expected user traffic (down midnight-6 am)
 - Automatic load balancers
 - Next week
- Make a GitHub and give them ownership/foundership
